

FERRARI OF SAN FRANCISCO

MILL VALLEY, CA

SIZE(SF)
12,000

When building a showroom for one of the world’s most recognized brands, ordinary just won’t do. Resembling a stunning Italian villa, Fisher built Ferrari of San Francisco’s newly relocated showroom and service center. In addition to the ground-up building, we performed the tenant improvements to the former service station that once occupied the site. Fisher also did extensive work to the exterior car port area and to the landscaping.

MARKET SECTOR

Automotive
