

## GAP CORPORATE

 SAN BRUNO, CA

CLIENT / OWNER

Gap Inc.

ARCHITECT

William McDonough; Genster Associates

DURATION

9 months

SIZE(SF)

195,000

Gap Inc. tapped Fisher to perform the tenant improvements of their new corporate campus near San Francisco. The visionary design and commitment to sustainable construction received international acclaim, and was instrumental in legitimizing the green building movement prior to LEED and other sustainable building standards. The three-building campus includes offices, a fitness center with lap pool and a cafe. Additionally, Fisher built a pair of two-story landscaped atriums, a grand lobby, executive auditorium and conference center.
