

HOLMES STRUCTURES

📍 SAN FRANCISCO, CALIFORNIA

CLIENT / OWNER

Holmes Structures

ARCHITECT

Sutro Architects

DURATION

8 weeks

SIZE(SF)

5,200

The San Francisco headquarters of this engineering firm are located in the Hallidie Building. The historic structure in the heart of the financial district is credited as being the first American building to feature glass curtain walls. Fisher built out the reception area, conference rooms, offices and kitchenette with a design that is both clean and timeless.
