

KATHERINE DELMAR BURKE SCHOOL

 SAN FRANCISCO

CLIENT / OWNER

Katherine Delmar Burke School

ARCHITECT

Turnbull Griffin Haesloop Architects

DURATION

10 weeks

COMPLETION DATE

August 2018

SIZE(SF)

10,000

The Power of 6! This fast-track summer project at Burkes School included the total reconstruction of six new restrooms, six new locker areas and six new student breakout classrooms. The newly constructed areas, which were reconstructed to create better efficiency in the space are now ADA compliant. Scope also included building new exterior walls and the installation of new waterproofing and windows where extensive dry rot had occurred. Finally, Fisher resurfaced the play yard/basketball court using Plexipave surfacing.
