

WATKINSON SCHOOL

📍 WEST HARTFORD, CT

CLIENT / OWNER

Watkinson School

ARCHITECT

JCJ Architecture

DURATION

22 weeks

SIZE(SF)

3,500

The Watkinson School envisioned a new, state-of-the-art structure for its Science and Global Studies Program. And they needed it built over the summer. They selected an innovative building design known for its flexibility, environmentally innovative features and rapid deployment. Fisher performed the site work, framing of three interconnected, energy neutral classrooms as well as the interior build out. This state-of-the-art center features numerous sustainable elements including photovoltaic panels, geothermal power and a living roof. Facility includes two science labs, offices, restrooms, seminar room and mechanical room.
